Gokulakannan Sakthivel

Chennai, India | Phone: +91 7397471507 | gkannan.sakthi03@gmail.com | github.com/GokuHashira

OBJECTIVE

Accomplished Machine Learning engineer, honored for proficiency in Microsoft Azure, AWS Cloud, Generative AI, ML, NLP and Python, aspiring to pursue a Master's in Data Science, specializing in Natural Language Processing, in pursuit of a career as a Data Scientist.

TECHNICAL SKILLS

- **Languages**: Python, MATLAB(Basics), Java(Basics), Powershell, YAML
- **Frameworks**: Flask, OpenAI, HuggingFace, Pytorch, Tensorflow, Pandas, Numpy, Scikit-Learn
- **Tools**: Git, GitHub Actions, PostgreSQL, SQLite
- **Platforms**: Azure Cloud, AWS Cloud, GCP

EDUCATION

NATIONAL INSTITUTE OF TECHNOLOGY ROURKELA — Rourkela, India
Bachelor of Technology in Chemical Engineering — June 2018 - June 2022

Cumulative GPA: 8.17/10.0; Honors in Chemical Engineering

Relevant Coursework: Mathematics I,II(ODEs, Matrix Theory, Vector & Differential Calculus), Basic programming in C, Chemical Engineering Mathematics, Numerical Analysis

CHINMAYA VIDYALAYA ENGLISH MEDIUM — Rourkela, India
High School Degree — May 2015 - May 2017

Percentage: 94/100; Academic Excellence with perfect score in Computer Science

WORK EXPERIENCE/INTERNSHIPS

ELI LILLY AND COMPANY INDIA — Bengaluru, India
Machine Learning Engineer — Oct 2023 – Now

- Ascended to work with GenAI Team to develop Generative AI solutions.

Azure Cloud Engineer — July 2022 – Oct 2023

- **GenAI Hackathon Runner Up**: Led a team of 3 members and achieved the runner-up position by creating a chatbot driven by LLaMA LLM.
- **ServiceNow-JIRA Integration**: Solely implemented the solution by automation using Python that helped in reducing the effort of manually creating tasks to 60%.
- **Key Projects:** Actively participated in DevSecOps Pipeline Creation, Policy as Code Implementation, Transition from Azure DevOps to Github Actions, Migration from ARM to Bicep Template and many more.

UNIVERSITY OF CALIFORNIA IRVINE — Remote
Natural Language Processing Intern — Jun 2021 – Jan 2022

- **Cancerous Genome Transcription Prediction**: Investigated Deep Learning(Variational Autoencoders) models for predicting cancerous transcription in Genomes under the guidance of prof Jing Zhang.

INDIAN INSTITUTE OF TECHNOLOGY MADRAS — Chennai, India
Machine Learning Intern — May 2021 - Aug 2021

- **Polymer Phase Transition Prediction:** Implemented Principal Component Analysis to predict the critical temperatures of phase transition in polymers from Chain to Globule State under the supervision of Prof Tarak Patra.

INDIAN SPACE RESEARCH ORGANISATION — Remote
Deep Learning Intern — May 2021 - Aug 2021

- **Land Use and Land Cover Classification:** Implemented Unet architecture to classify land-use and land-cover of geo-spatial data obtained from sentinel hub under the supervision of Scientist Rosly Boy Lyngdoh.

INEURON.AI — Remote
Full Stack Machine Learning Intern — Sep 2020 - Mar 2021

- Assisted the team in building an end-end Healthcare premium predictor application and hosted the application on DigitalOcean Cloud. Involved in CI/CD pipeline construction, model evaluation and application hosting.

PROJECTS

MACHINE LEARNING AND DEEP LEARNING ON VAPOR LIQUID EQUILIBRIUM PREDICTION OF CARBON DIOXIDE OVER AMINES Jun 2022

- Final year thesis under prof Madhushree Kundu that involved using machine learning and deep learning techniques to predict Vapour liquid equilibrium of carbon dioxide over various amines like MEA, AMP, DEAE etc.

NITRKL SYLLABUS CHATBOT Jun 2021

- Developed an end-to-end chatbot utilizing RASA and Python, seamlessly integrated with Telegram. Facilitated convenient access to NIT Rourkela's syllabus for first-year students.

AWARDS AND CERTIFICATIONS

- Generative AI Hackathon Runner Up - Jun, 2023
- Microsoft Azure Fundamentals Az-900 - December, 2022
- IBM Data Science Specialization, IBM Coursera - June, 2021
- Deep Learning Specialization - July 2020

VOLUNTEERING EXPERIENCE

INSTITUTE COUNSELING SERVICES NITRKL NIT Rourkela, India
Mentor 2019 – 2022

- Guided 4-5 freshmen every year on behalf of the committee and assisted them with adapting to academic and non-academic environments at NIT.

AASRA NIT Rourkela, India
Member 2020 – 2021

- Taught underprivileged students from the OSAP community and found joy in the meaningful interactions with them.

ADDITIONAL

Leadership Roles: Leader of Generative AI Hackathon team(2023), Design Coordinator of Indian Institute of Chemical Engineers Club and Microsoft Campus Club(2021), Vice Captain of OSAP Aasra Community(2021)
Languages: Proficient in English, Tamil and Hindi
